VIDYASAGAR UNIVERSITY

MIDNAPORE -721 102, WEST BENGAL, INDIA

From the desk of Vice-Chancellor

I am immensely delighted to welcome you to Vidyasagar University, one of the leading academic institutes in West Bengal, India, located in the outskirts of Midnapore Town, the district headquarter of Midnapore West district. This State University was established in 1981 and has been flourishing steadily with lots of ramifications in academic sphere blending both traditional and modern subjects. I am privileged to start my teaching career at the University level after joining this University on 04.03.1991 in the Department of Zoology as one of the founder batch of teachers and completed a teaching career of more than 32 years of which more than 19 years as Professor of Zoology.

The University is named after Pandit Ishwarchandra Vidyasagar, the legendary 19th century pioneering social reformer and the doyen of Indian Renaissance, social activist, litterateur who was dedicated to the cause of the uplift of women and propagation of education to the different strata of the then society.

Since its inception, the University has committed itself to the gamut of teaching and learning in higher education, with the prime objective of rendering value-based quality education and providing research and extracurricular activities in the best possible manner. All those efforts have been for spreading alongside the benefit of higher education in an environmentally challenged location (drought prone, lateritic soil, degraded forest and extreme climatic condition) inhabited mostly by poor and marginalised peoples of the society but which has a glorious history of playing a lead role in the freedom struggle of India. The University has registered its growth both qualitatively and quantitatively in terms of academic development, research outcomes and societal interactive process. Post-Graduate studies are conducted not only in 27 departments (14 Science subjects and 13 Arts & Commerce including 5 Language subjects) of the University but also in 35 affiliated colleges /institutions as well. The University also boasts of its 4 Inter-disciplinary Centres namely Centre for Adivasi Studies and Museum, Centre for Environmental Studies, Centre for Life Sciences and Centre for Women's Studies. The number of affiliated colleges is 59 out of which 8 colleges have been awarded 'A' Grade through NAAC accreditation. The subjects offered in the undergraduate colleges cover the traditional subjects as well as modern emerging ones. A few professional colleges providing courses in management and social work also belong to this University circuit.

It is a matter of pride that the prime objective has been achieved to a considerable extent on delivering quality education and knowledge in tune with global sustainable goals both in conventional and non-conventional subjects which are reflected in the success rates of our ex-students in the national and international spheres.

Vidyasagar University has a beautiful sprawling and eco-friendly plastic-free campus which houses administrative departments, post-graduate departments for teaching, learning and research, a Centre for Distance and Online Education (CDOE), expanding hostel buildings for both male and female students, residential accommodation for both teaching and administrative staffs, a sports complex, a

student amenity Centre and Extension Centres etc. The University now boasts of being one of the first smart campuses in West Bengal. In consonance with its vision to be a centre of excellence in the areas of teaching and research and other kind of academic activities, Vidyasagar University's academic structure and Aims and Objectives had been so designed to enhance students' ability to become highly competent professionals and global players of the future.

The overall achievements of our University during its onward journey enunciating around 40 years back have promoted the University stakeholders to become more confident and determined to promote the spirit of progress in the academic circle of West Bengal and spread the message of quality and human friendly education to other parts of the Country. But this is not the end, it is rather a beginning and we have to undertake hard work and concerted efforts as a Team to achieve bigger goals both in the field of higher education and social reconstruction. Such committed and determined commitments are expected to make Vidyasagar University as one of the pioneering Universities not only in the field of academic and administrative activities but also as a centre of innovative ideas in Teaching, Research and Development.

The faculty members of this University have put in outstanding effort in blending quality research with pedagogic skill. They have made full use of the smart class rooms and have pulled in a substantial amount of research funding through the year. Faculties of several departments were felicitated with awards in recognition of their contribution to teaching and research. Their research endeavours have attracted significant grants from funding agencies for the development of pedagogic and research infrastructure in the campus. The teachers earned international and national recognitions by virtue of their research findings, which have been reflected in their high-quality research publications and completed research projects, our teachers have been granted international and national patents, travelled far and wide on their academic tours to different parts of the world and two faculties have earned rare distinctions by their inclusion among the world's best scientists. The University has added another feather in its cap by conferment of the award of D. Lit. and D.Sc. to those who are aptly suitable for the same.

It has been decided to celebrate 26th September as Vidyasagar Divas each year. Starting from 2021, the Vidyasagar Purashkar has been conferred to different distinguished personalities widely recognized in their respective fields. The University has also celebrated 75 years of Indian Independence through various year-long programmes. In addition, several internationally acclaimed personalities have delivered the most prestigious Vidyasagar Lecture.

Apart from the Wi-Fi enabled Smart Campus with free internet, Vidyasagar University now is having 13 audio-visual Smart e-Class Rooms, RFID based Wi-Fi enabled Library, PWD compliant campus with assistive technologies, Ragging Free campus, scheduled Bus service and shuttle Car service, Placement Cell and Stress Management Cell, Modern Garbage Disposal System in the campus and Subsidized Meals to the postgraduate students. The only institutional setup for academic research on tribal culture and literature within the varsity system of this state is now located in our campus as an interdisciplinary Centre for Adivasi Studies. It maintains an Adivasi Museum as part of its archival project. It is pertinent to mention that there are a number of remarkable feats that the University achieved such as the Community Radio Station (Betar Vidyasagar), the newly built Mini Indoor Games/Recreation Complex and a Concrete Cricket Pitch dedicated to the students of the University, a proper transport facility, the University Yoga Centre, a Basketball Court etc. Apart from the Automatic Weather Station, a real-time air quality monitoring display board has been installed at the University very recently with active support from the West Bengal Pollution Control Board. Several efforts have also been undertaken to address the problems pertaining to Disaster Management.

Vidyasagar University has been adjudged as the Best Public University for rendering Holistic Education and has been conferred with the Award for Education Eminence 2022 by the News 18 Bangla electronic media. This accomplishment belongs to all members of this University community who have really toiled hard with utmost efficiency to achieve this unique distinction. The NSS Cell of Vidyasagar University has received the State NSS Award from the Government of West Bengal for the 2020-'21 academic session for outstanding performance in the field of community service. Apart from these, Vidyasagar University has celebrated the 'Azadi Ka Amrit Mahotsav' (75 Years of Indian Independence) through various academic, social and cultural events throughout the year to commemorate this very significant occasion. The outcomes of all those activities are expected to be surfaced through publications by the publication cell of this University. The Vidyasagar University has been able to successfully organize both National and Regional Youth Festivals jointly with the Association of Indian Universities (AIU).

Vidyasagar University has been accredited (4th Cycle) by NAAC with B++ Grade (CGPA of 2.79 on a four point scale). The performance of Vidyasagar University has been quite satisfactory and the University is doing consistently good in the NIRF Rankings released by the MHRD. With the continuous all round efforts by the stakeholders (Teaching, Research and Administration), it is expected that this University will certainly be able to become one of the leading Universities of India.

MOU has been signed with internationally acclaimed institutions like the Institute of Ethnography and Anthropology under the Russian Academy of Sciences and the Centre for Adivasi Studies and Museum of Vidyasagar University. It is to be mentioned that the MOU which has been signed at the Bengal Global Business Summit, Kolkata among the researchers of two countries, on the indigenous and tribal studies, will benefit greatly to the academic communities alike. Institutional linkages have also been established for carrying out academic collaborations between Vidyasagar University and University of East Anglia, Norwich, England and Nuremberg University of Music, Germany. Several other MOUs with Foreign Universities are under process.

The Women's Football Team of Vidyasagar University has emerged as the Champion at the Khelo India University Games 2021 held at Jain University, Bangalore. This is first time that the Women's Football Team of our University went on to participate in any tournament and have created history by beating Guru Nanak Dev University, Punjab in the final to clinch the title.

The students of Vidyasagar University have been placed in Aurigene Discovery Technologies Limited, Bengaluru in the 2021-'22 session.

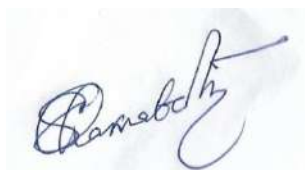

The entire community of Vidyasagar University is very much concerned about maintaining the ecological health of the campus which have been reflected to convert a huge chunk of waste land of about 200 acres as the very beginning of the University to a 'Green Belt' with the passage of time, with very little emission of atmospheric pollutants, alongside promoting several Green Technology based activities like bioconversion of solid wastes into organic fertilizers, promoting the propagation of pollinators alongside harvesting honey, production of mushroom culture, aquaculture, rain water harvesting, installation of solar panels, maintenance of orchards, maintenance of animal feeding sites etc. Establishment of Psychological Counselling Centre has enabled so many students to combat different kinds of stresses (familial and societal) especially during the stressful times of the Covid-19 pandemic.

The University community expresses their gratitude to Smt. Mamata Banerjee, Hon'ble Chief Minister, Government of West Bengal, for granting a Mini Indoor Games/Recreation Complex for the students of Vidyasagar University which has already been commissioned and named as "P K Banerjee Indoor Games Complex".

As a Vice-Chancellor of this University, I shall try my best to consolidate our strength more judiciously with the aim at achieving a model University Management System by inculcating value based holistic and integrated approaches so that the needs of the students are satisfied and expectations of society are fulfilled.

This Postgraduate Prospectus provides you with useful information about Vidyasagar University's background, admission requirements, structure of its academic programmes and general information about the services and facilities available in this University.

We look forward to receiving you as a new member of the Vidyasagar University community. Join us and be proud of your identity as a student of Vidyasagar University.

Professor Susanta Kumar Chakraborty

Vice-Chancellor

ABOUT THE DEPARTMENTS

Vidyasagar University started its academic activities, during the Seventh Plan Period (1985), from the session 1985-1986, following an Act of the State Assembly, to cater to the needs of higher education with special emphasis on the all-round development of the rural areas of the agro-based districts of Midnapore. The geographical area covered by this University is quite under-developed and that demands special attention on human resource development to improve the socio-economic condition of the people of this region. The Courses offered by the University have been designed with that end in mind.

The University began its journey with six Post-Graduate Departments under Arts, Commerce and Science Faculties from the session 1985-1986 and each course was designed to lay special stress on regional needs. Subsequently, in 1989 & 1990, nine more P.G. Courses were added and special attention and weightage were duly given to the needs of the region, keeping in mind the environmental requirements like Forestry and Fisheries as well as Health and Nutritional needs of the people, besides the technological requirements for industrial development in the region. The programmes offered by the University as on date are as follows:

Centre for Life Sciences (CLS)

About the Centre

The Centre for Life Sciences at VU was started in July 2016 with an Integrated M. Phil, Ph. D. Course in Life Sciences having an intake capacity of 20 students. We are committed to the vision of Vidyasagar University, i.e. “The overall emphasis of the university is not to perpetuate the traditional nature of the other universities of West Bengal but to merge as a distinctive entity with a special nature of its own”.

The future plans of this centre include extensive interdisciplinary research programmes by students and faculties in various areas of Biology.

The centre’s main endeavour would be to achieve excellence in teaching and learning by research. The centre will promote collaborative activities at national and international level. The Centre for Life Sciences is

committed to serving the academic community and public at large through its outreach initiatives like basic and translational research in the field of food security, sustainable environmental development and health care.

The centre now regularly organizes short term training courses in different branches of life sciences.

National Science Day programme organized by the CLS

National Workshop on Biological Instrumentation in June 2022

Women's Studies Centre

Objectives:

Women's Studies Centre aims to promote study, research, documentation & publications, training and consultancy, on issues related to women with an object to support women from all strata of society especially from rural South-Bengal to understand their inner potentials. The Centre also intends to provide a flourishing interdisciplinary environment for research and allied activities on a wide range of Women's issues.

Ph.D Programme in Women's Studies:

The centre has its Ph.D programme in Women's Studies from the session 2019-20 to enhance and nourish the research potentials of scholars who carry out research in the domain of women's studies. Any candidate with either Social Science or Humanities background may join the programme, following extant university norms.

Centre for Environmental Studies (CES)

About the Centre:

The Centre for Environmental Studies (CES) is an interdisciplinary centre for research and education in Environmental Studies including environmental history and environmental humanities. The Centre was founded in 2018 by the Vidyasagar University to undertake activities related to various environmental issues, promote Environmental Education and Awareness, Research and Management. The Centre will meet its mission by fostering and supporting collaborative research programmes, developing and maintaining the state of the art facilities for research and facilitate the development and implementation of multi-disciplinary research programmes in the field of Environmental Studies. Owing to its inherent interdisciplinary nature the centre will be run with the academic inputs from resource persons of diverse disciplines from within Vidyasagar University and also various universities and institutes in India and abroad.

Aims:

The Centre has been established to conduct research and produce interdisciplinary knowledge as an integral part of its programmes. It will offer different certificate, diploma and degree courses related to various fields of Environmental Studies for students, research scholars, working professionals and other interested persons with the view of widening their knowledge and skills and to make them suitable for today's competitive employment-market. It also aims to open a fruitful dialogue between Environmental Science and Environmental Humanities by fostering research in cross-disciplinary areas. The major objective of the centre will be to formulate research strategies required for the development of the emerging and enlarging areas of environmental studies by undertaking research projects on various themes of the thrust area including History of Conservation and Management of Nature, State Policy and the Natural World. Also included are the Intellectual History of Environmental Ideas in India and building up of necessary research tools for opening up new pertinent queries. The research projects of the centre would contextualize and historicize the diverse issues within the framework of global environmentalism, the present environmental debate and the ongoing concern with global warming faced by the human society today. The aim of the centre is to capture existing conjunctions across environmental philosophy, environmental history, eco-criticism, cultural geography, cultural anthropology, and political ecology and also seek to integrate debates so far largely shaped by different disciplinary contexts.

Mission:

The Centre for Environmental Studies (CES) seeks to increase the understanding of current environmental issues. The objective of the centre is to disseminate adequate knowledge and skill among the researchers through proper training, survey and exposure to environmental issues in today's world. The students will also be trained in all aspects of environment management and cutting-edge technology in order to enhance their knowledge to address the recent environmental problems and management of these issues in a professional manner. (The emerging requirement for environment-conservation professionals shall be met by those trained by the Centre)

Programmes:**Ph.D**

The PhD in Environmental Studies is one of the most diverse doctoral programmes exploring environmental concerns. Adopting an interdisciplinary approach to environmental research, it connects conventional disciplines such as social sciences, humanities, arts, and natural sciences and several others in ways that encourage viewing issues through a broader, more contextual perspective.

This programme has three overarching aims

- To examine the nature, causes and impacts of major types of environmental change. How do these changes operate and interact on global, regional and local scales? How do they relate to critical social and ecological systems?
- To examine the economic, legal, cultural, and ethical underpinnings of environmental responsibility and systemic solutions, including mitigation, adaptation, remediation, enhanced resource stewardship and other sustainable responses to environmental change at different scales and within different organizational contexts; and
- To empower environmental leaders to address the world's most pressing environmental problems through an understanding of and training in the key analytical and practical skills, and in a broad appreciation of earth systems and societies in relation to environmental change.

Centre for Adivasi Studies and Museum

About the Centre:

Vidyasagar University is located in a socio-economically backward district of West Bengal. A substantial number of students of the University belong to the socio-economically disadvantaged groups, mainly the adivasi communities like Santal, Bhumij, Lodha, Munda, Shabar, Kora, Ho, Birhor etc. This Centre specially caters to the needs of the adivasi students who want to pursue higher studies and engage in research activities related to the fields including tribal literature, art and culture. The museum houses rare tribal artifacts that are objects of particular academic interests for scholars pursuing research in cultural studies and anthropology. The non-tribal students derive benefit from this centre by studying in the fields of Adivasi literature and culture and other allied disciplines along with the tribal students. Thus, the centre provides a space for an intimate exchange between different forms of cultures – the so-called mainstream and the marginal, and resists the privileging of the former over the latter.

Vision:

The Adivasi Studies is no longer an ‘other’ in the domain of academic research. At present, it is a field of much interest to the academicians all over the world. The Centre for Adivasi Studies and Museum (CASM) at Vidyasagar University offers higher studies and awards degrees and certificates in the related field. From the academic year 2019-20 it has started offering three self-financing courses: Certificate Course in Museum Studies; M.Phil. and Ph.D programmes in Adivasi Studies. At present the CASM runs Ph.D. programme in Adivasi Studies. The Centre regularly organizes conferences/workshops to spread new ideas in the field of Adivasi Studies. The centre invites experts from different parts of the country and beyond to shape the future course of Adivasi Studies. The centre has recently collaborated with Institute of Ethnology and Anthropology, Russian Academy of Sciences, Moscow, Russia and Nuremberg University of Music, Nuremberg, Germany. It has plans to join hands with allied centres / study circles across the country for the promotion of Adivasi Studies. The CASM has also published. book.

Objectives:

The students and scholars attached to the centre make extensive field-trips to the tribal-dominated villages to collect texts and artifacts which are essential for the understanding of Adivasi art, literature and worldview. The texts are documented and translated into the target languages including Bangla, Santali and English. The texts are assessed as cultural texts and analysed from a linguistic point of view. The cultural performances of the tribal communities which represent their

seasonal festivals, social rites and rituals among other things are properly recorded and documented with a view to creating a state-of-the-art digital archive.

Adivasi Museum

A museum is a building used for the storing, preservation, and exhibition of objects considered to be of lasting value or interest, as objects illustrative of antiquities, natural history, fine and industrial art etc . A tribal museum is obviously a museum with a difference. It takes care of articles/artifacts that are representative of tribal art and culture. It speaks of a civilization that is very ancient, a culture that is primordial. Our country does not have many tribal museums. And our state, perhaps, has the only tribal museum which is located in the campus of Vidyasagar University. The museum conserves and showcases various articles ranging from ornaments to musical instruments, from agricultural implements to clothes which all stand for an indigenous culture. All the items have distinct tribal names. Thus, in the exhibition hall displaying agricultural implements, we see ‘Nahel’, the plough used by the Kherwardian people, with its ‘Ishi’, ‘Patkhil’, ‘Kanba’, ‘Pawnra’, ‘Phal’ etc. In the gallery for musical instruments, among other articles, is conserved the stringed cum wind instrument called “Hotot Bhuang” which people of the Santali and Munda communities used as musical instrument to camouflage as a weapon (bow and arrow) during war with foreign invaders. Historians of music maintain that it was the first instrument of its kind in the world. In the section displaying clothes we see the tribal ‘Lugri’ which is made out of ‘Sutam’. This ‘Sutam’ is available from the plant ‘Kaskom’ the name of which is found in ancient Sanskrit literature. The museum has a wonderful collection of ornaments including ‘Hanshli’, ‘Tora’, ‘Banki’, ‘Baju’, ‘Dimbra’ etc which are used by the people of different tribal communities. The visitor to the museum will also see the household items like ‘Jonok’, ‘Hatak’, ‘Theka’, ‘Chala’ etc; cooking utensils like ‘Chelang’, ‘Tukuj’, ‘Karahi’ etc; and instruments like ‘Ruka’, ‘Renda’, ‘Korat’, ‘Tanga’ etc which all speak volumes for the day-to-day existence of the tribal people. These articles have largely been collected from the tribal-dominated villages in Orissa, West Bengal and Jharkhand. The special attraction of the museum is the rare collection of tribal patachitra (scroll painting). These paintings reflect the distinctive lifestyle and worldview of the Adivasi communities. These paintings co-exist with the Kalighat patachitra. We have thus a space for heterogeneous cultures in the museum.

THE CENTRE FOR CONTINUING AND ADULT EDUCATION, VIDYASAGAR UNIVERSITY

1. Introduction:

The **Centre for Continuing and Adult Education (CCAIE)** under Vidyasagar University has been established in the year 2018 to offer different certificate, diploma and degree courses for the working professional, students and others in view to widening their knowledge and skills and to make them eligible for competitive job market. The learning domain includes courses for non-traditional students, non-degree career training, workforce training and formal personal enrichment courses. The courses under CCAIE are making education relevant to real life situations and are also preventing the alienation of the educated from society.

International students may also apply to degree-granting post-graduate programs across several disciplines. Non-degree granting programs are also open to foreign students. Before joining any course of the University, students must satisfy the academic requirements set for each course and obtain clearance from the Ministry of Education, Govt. of India, for studying in India. They should apply early so that all formalities can be completed on time.

All the Courses offered by CCAIE are open to all but specially for working personnel of Government/Bank/NGO/Media Houses, teachers, retired persons and students of different levels in different institutions. Reputed institutions/organizations are also being encouraged to run different Diploma/Certificate courses at their respective centres after prior approval and compliance of academic requirements of CCAIE, VU.
