

Office of the Registrar
VIDYASAGAR UNIVERSITY

Midnapore - 721 102.

Dated : 29.05.2025.

NOTIFICATION

In continuation to the Notifications bearing Memo No. VU/R/Noti./C178/2022 dated 29.04.2022 and Mmemo No. VU/R/Noti./C0107/2024 dated 23.04.2024 issued by this office earlier, it is hereby notified for the general information again that the water in the underground is not sufficient and the water level is falling down rapidly day by day due to schorchy heat waves. For this reason, the University is unable to provide sufficient water to its stakeholders specially, during summer. It has been observed that due to negligence in putting off the water tap, huge amount of water is being wasted which is leading to a water crisis. Besides this, it has also been observed that, the water taps used to serve the water in the University gardens & other gardens and also in the University Playground, remain open maximum time resulting in huge amount of water is being wasted. It has been observed further that while washing the vehicles, the concerned persons use tap water directly instead of using the water judiciously. In case of washing the vehicles and also requirement of the water for the gardens, the concerned persons are requested not to use the tap directly and use the water from the tap with bucket for these purposes. In this connection, all stakeholders of this University are hereby requested to use the water judiciously otherwise, we will face great trouble in future due to shortage of water.

All stakeholders of this University are being informed accordingly and requested again to save the water without wastage and use it judiciously. The Gardener who is looking after the University gardens are also requested to optimum use of water for the purpose of University gardens.

This notification is issued with the approval of the competent authority.
